DIRECTORS' REPORT

Your directors of Giaconda Limited (**Giaconda** or the **Company**) present their financial report for half year ended 31 December 2013.

DIRECTORS

The names of the Company's directors in office during the half year and until the date of this statement are set out below. Directors were in office for this entire period unless otherwise stated.

Mr Patrick McLean	(Chairman and acting CEO) – Resigned on 7 June 2018.
Professor Thomas Borody	(Chief Medical Officer and Executive Director)
Mr Chris Bilkey	(Non-Executive Director)
Mr Trevor Moore	(Non-Executive Director) – Passed away on 8 March 2016.

RESULT

The operating profit of the Company for the six months after providing for income tax amounted to \$92,206 (December 2012: loss \$17,400).

REVIEW OF OPERATIONS

During the period, the Company remained subject to external administration and worked towards implementing the transactions contemplated by the Deed Of Company Arrangement (**DOCA**).

The DOCA had been approved by a majority of the Company's creditors (by value and number) at the second meeting of creditors' held 23 March 2011. The DOCA contemplated that:

- Minimum Risk Pty Ltd (**Minimum Risk**) will provide a \$450,000 convertible loan to the Company once certain conditions have been satisfied;
- The \$50,000 previously lent by Minimum Risk to the Company will be converted into fully paid ordinary shares in the Company once certain conditions had been satisfied;
- Professor Thomas Borody will sell a significant part of his shareholding in the Company to Minimum Risk once certain conditions have been satisfied;
- The Company will undertake a capital raising to fund its existing business operations once certain conditions are satisfied;
- The Voluntary Administrator's (being Mr Nicholas Crouch) remuneration will be paid from the available funds. The Voluntary Administrator had a remuneration cap of \$66,000 (GST inclusive) for the period from 25 February 2011 to 31 March 2011 and a remuneration cap of \$11,000 (GST inclusive) for the period from 31 March 2011 to the date of approval of the DOCA;
- The Deed Administrator's liabilities and remuneration will be paid from the available funds. The Deed Administrator would have a remuneration cap of \$44,000 (GST inclusive);
- Certain third party service providers to the Company will be paid in relation to the transactions contemplated by the DOCA;

DIRECTORS' REPORT

- Professor Thomas Borody will be repaid \$37,916. That amount represents the money he lent the Company on an unsecured basis to pay FB Rice & Co the invoices by them to the Company;
- Trade creditors with admitted claims will be paid 100 cents in the dollar once certain transaction costs have been paid;
- Corporate Governance Australia Pty Ltd ATF the Maguire Family Superannuation Fund (**CGA**) (being a company associated with the former company secretary, Mr Vincent Sweeney) will be paid an amount not exceeding \$30,000 to terminate all of its then valid options in the Company on issue;
- Related party creditors with admitted claims will be paid the balance of the available funds;
- Related party creditors whose admitted claims have not been fully satisfied will be provided with the opportunity to have their debt assumed in full by Crohn's Benefit Company Pty Ltd (**CBC**) (being a company incorporated by Mr Trevor Moore and Mr Chris Bilkey for the sole purpose of acquiring and holding the royalty rights to Myoconda®, Heliconda® and Picoconda® for the existing Giaconda shareholders in proportion to their then current shareholdings in Giaconda);
- The CBC will acquire rights to any royalties received from Myoconda®, Heliconda® and Picoconda® subject to certain conditions being satisfied which included the approval of the Company's shareholders; and
- The directors and management of the Company may change once certain conditions have been satisfied.

The proposed DOCA is subject to separate approvals from a majority of creditors and a majority of shareholders of the Company.

On 21 April 2011 the DOCA was varied to increase the provision made for the Deed Administrator's anticipation remuneration. The DOCA was executed by all parties to it on or about 21 April 2011. However, as at 31 December 2011, the proposed DOCA had yet to be approved by the Company's shareholders and its transaction remained unconsummated.

The DOCA was varied on or about 2 February 2012 to remove the \$30,000 provision which had been made in favour of CGA for the purpose of persuading CGA to surrender its options over unissued Company shares and to increase the Deed Administrator's anticipated remuneration.

EVENTS SUBSEQUENT TO REPORTING DATE

The DOCA was terminated on 4 July 2013.

The DOCA was terminated and control of the Company's business and affairs was handed back by the Deed Administrator, Mr Nicholas Crouch, to the Board of Directors on or about 4 July 2013.

In summary, the net result of the Company going into administration (initially in the form of voluntary administration and later, following the approval of the DOCA, in the form of deed administration) was that:

- the Company paid all its third party creditors on or about 28 March 2013 in full;

DIRECTORS' REPORT

- the Company reached agreement with its related party creditors on or about 28 March 2013 that certain debts owed by the Company to them is on a contingent liability basis and is only repayable on the first to occur of:
 - the Board reasonably determining that the payment of those amounts will not impact on the operational viability of the Company; or
 - there is a change in ownership of more than 50% of the issued shares of the Company; or
 - the Company cumulatively raises \$5 million in a year;
- the only remaining option held by CGA over unissued shares in the Company expired with the result that the Company had no further options on issue;
- the Company obtained a commercial benefit of \$200,000 from Minimum Risk on or about 28 March 2013. That benefit resulted from the Settlement Deed which the Company entered into with Minimum Risk regarding the alleged failure by Minimum Risk to perform its obligations under the DOCA;
- the Company retained its royalty rights in Myoconda®, Heliconda® and Picoconda® pursuant to the Sale Agreement; and
- the Board decided to scale back the Company's entire operations and allow its registered patents over Hepaconda® and Ibaconda® to lapse. That decision was made in line with the Board's decision to fully impair the value of those products.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2013

NOTE 1: BASIS OF PREPARATION

These general purpose financial statements for the interim half-year reporting period ended 31 December 2013 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standards including AASB 134: Interim Financial Reporting. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Giaconda Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Company. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended 30 June 2013, together with any public announcements made during the half-year.

The same accounting policies and methods of computation have been followed in this interim half-year financial report as were applied in the most recent annual financial statements.

(a) Going Concern

The Company incurred a net profit after tax of \$92,206 for the period ended 31 December 2013 and had net current asset deficiency and a net asset deficiency of \$928,319 as at that date. The Company was in administration from the period 25 February 2011 to 4 July 2013. These events give rise to a material uncertainty as to whether the Company can continue as a going concern and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The Directors have determined that the Company is a going concern and have prepared the financial statements on that basis. The Directors have made that determination based on the public announcements made by RedHill Biopharma Ltd (RedHill) to its investors about its progress in commercialising and developing Myoconda® (which therapy is now called "RHB-104" by RedHill), Heliconda® (which therapy is now called "RHB-105" or "Talicia®" by RedHill) and Picoconda® (which therapy is now called "RHB-106" by RedHill).

The Directors have also made that determination based on the key assumptions that the Company's operations will be kept on a care and maintenance basis, the Company will not maintain its Hepaconda and Ibaconda patents and no repayments of related party loans will be made. The Directors have obtained letters of support from the related parties confirming their willingness not to call for repayment of their loans for a period of at least 12 months from the date of signing of the financial report.

Should the Company not obtain royalties from RedHill or should the support of shareholders not be forthcoming, then the ability of the Company to continue as a going concern is uncertain.

No adjustments have been made to the recoverability and classification of recorded asset values and the amount and classification of liabilities that might be necessary should the Company not continue as a going concern.

NOTE 2: FINANCIAL LIABILITIES	Note	31.12.2013	30.06.2013
		\$	\$
Current			
Borrowings - non-interest bearing	2a	884,171	976,898

a. The loans are only repayable should one of the following events occur:

- (i) The Company enters into a licensing agreement for one of its products and the Board of Directors reasonably determines that the repayment of this amount will not impact on the operational viability of the Company.
- (ii) The Company raises funds whether through debt or equity equal to or exceeding the cumulative amount of \$5,000,000 in any financial year.
- (iii) There is a change in the ownership of more than 50% of the issued shares of the Company.
- (iv) The Company becomes insolvent or subject to any form of external administration other than for the purpose of corporate restructuring.

NOTE 3: OPERATING SEGMENTS

Segment Information

Identification of reportable segments

The Company has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Company is managed primarily on the basis of product category and service offerings since the diversifications of the Company's operations inherently have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are also similar with respect to the following:

- the products sold and/or services provided by the segment;
- the manufacturing process;
- the type or class of customer for the products or service;
- the distribution method; and
- external regulatory requirements.

Types of products and services by segment

- (i) *Holding patents to earn future royalties*

Basis of accounting for purposes of reporting by operating segments

Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statements of the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2013

NOTE 3: OPERATING SEGMENTS

Unallocated items

The following items of revenue, expense, assets and liabilities are not allocated to operating segments as they are not considered part of the core operations of any segment:

- income tax expense; and
- deferred tax assets and liabilities.

As at 31 December 2013, there was one identifiable reporting segment; patent holder. Therefore, all income, expenditure, assets and liabilities of the entity relate to this segment.

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Company's financial position as at 31 December 2013 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Giaconda Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Matters Relating to the Electronic Presentation of the Audited Financial Report

The directors of the Company are responsible for the integrity of the website and we have not been engaged to report on its integrity. This review report refers only to the subject matter described above. It does not provide an opinion on any other information which may have been hyperlinked to or from the financial report. If users of this report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the reviewed financial report to confirm the information contained in this website version of the financial report.

INDEPENDENT AUDITORS' REVIEW REPORT TO THE MEMBERS OF GIACONDA LIMITED

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Giaconda Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Giaconda Limited is not in accordance with the *Corporations Act 2001* including:

- giving a true and fair view of the entity's financial position as at 31 December 2013 and of its performance for the half-year ended on that date; and
- complying with AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.

Material Uncertainty Regarding Going Concern

Without qualifying our conclusion, we draw attention to Note 1(a) in the half-year financial report which indicates that the directors of the Company have determined that preparation of the half-year financial report on the going concern basis is inappropriate and as such have prepared the half-year financial report on a non going concern basis.
